#### RAILROAD NEWS.

### HOW WHEELS ARE MADE LIKE NEW

Lathe Men in the Big Machine hops Are Always Busy.

The machinist in charge of the wheel lathe and boring machine in any of the large machine shops of any railroad has a steady position, the truck wheels of locomotives and passenger coaches seemingly having chronic attacks of "flange wear" and "tread wear," that are impossible to overcome.

"Flange wear" is evidenced by the flanges of the wheels wearing thin, and "tread wear" by a depression in the tire of the wheel where it pounds the rail. "Tread wear" allows the flange to drop down and cut the switch frogs, and to remedy that, the wheels are taken to the shops and turned into the same condition, as far as appearance goes, as when they first pounded the rails. The tires on an ordinary engine truck or passenger coach wheel are, when new, the average life is about two and one-

three and one-quarter inches thick, half years.

When it becomes necessary to correct wheels which have become "tread worn" they are mounted, axle and all, on a large lathe and cut down from one-quarter to one-half an inch. The outer side of the wheel is cut down even more, as the pounding of the wheel on the rail soon wears another tread mark and pushes the metal toward the rim.

Flange and tread wear, as noticed on the driving wheels of a locomotive, is corrected by the boring machine, on which the flange is laid flat, but made to revolve so that they may be cut down.

When the wheels are again placed under the engine or passenger coach, the trucks are blocked to the proper height so that the fact that the wheels have been cured, for the time being at least, of "flange" or "tread" wear is appreciated by railroad men only.

### STEADILY PUSHING WORK ON SIERRA MADRE LINE

Extension Is Going Forward Rapidly—Change in the Train Schedule.

Work is going steadily forward on the extension of the Mexico & Northwestern railroad from Terrazas to Madera. The large force of men already at work is being steadily increased.

The route through the San Miguel canyon has been definitely chosen in preference to that which has been considered through the Santa Maria valley. The grade has already been completed southward from Terrazas about 40 kilometers (25 miles). The line extends southerly along the right bank of the Casas Grandes river about 21 kilometers, then crosses, and goes by way of the San Diego ranch and Ancon Del Rio (a Terrazas hacienda) to the canyon of the San Miguel river.

The grade is already complete to the mouth of the canyon and a little beyond. Sixteen kilometers of rails have been laid out of Terrazas and most of the steel for the balance of the work to Ancon has been delivered on the ground.

The new line through the canyon of the San Miguel will be one of the most picturesque in the entire southwest for natural scenic beauty. It will also reach into the heart of the deer country and that section will become more than ever a resort for sportsmen.

**New Equipment and Schedule.**  
The Mexico & Northwestern has ordered a large number of cars for an entirely new equipment of the passenger trains. The new equipment, the railroad people say, will be the finest in the southwest. The trains will carry observation cafe cars and coaches of the most modern and comfortable design. The mixed trains will be dropped and the passenger trains will be run without performing any freight service.

The new schedule will go into effect April 3, the south bound train leaving here at 1 o'clock in the afternoon, El Paso time, arriving at Casas Grandes shortly after 4. The north bound train will leave Casas Grandes after noon and arrive at Juarez at 5:20, El Paso time.

Under this arrangement it will be possible for El Paso business men to do business in Casas Grandes, losing only one day in El Paso.

## STREET RAILWAY TO ERECT NEW CAR BARN ON COTTON AVE.; COST \$11,000

Ground will be broken Monday for new street car barn, opposite the present structure on Cotton avenue, to cost \$11,000. Plans are expected from Boston Saturday and as soon as they arrive and are approved a permit will be issued and the work of construction will commence.

The street car company owns lots 1 to 21, in block 71, Cotton addition, extending back to the main line of the T. P. railroad, covering 120x500 feet, and it is on this land the building will be erected for the accommodation of cars.

## SCIENTISTS LAY CORNER STONE

New Church Edifice Is to Be Erected Without Debt. Money in Bank.

At sunrise this morning the cornerstone was laid on the foundation of what will be the home of the First Church of Christ, Scientist, of El Paso. Nearly the entire congregation, some 45 in all, attended the ceremonies.

Following the Lord's prayer, Mrs. Besse N. Nuckolls read from the Bible and the Christian Scientist's text book. In the cornerstone was placed a Bible, a text book, written by Mrs. Eddy, the Scientist's prophet, and the signatures of all members of the church society.

The new Christian Science church is perhaps the only church on record in El Paso which is being built without debt, necessary credit from the completion of the structure is deposited in a local bank.

The building will be especially beautiful, located at Stanton and Montana streets. Buff colored brick will be employed in the construction with four Corinthian columns at the front of the building.

## SHIPPING MEXICANS FOR RAILROAD WORK

Early Spring in the North Results in Early Importations.

The importation of Mexicans and their families and their shipment to northern and eastern states for railroad work, is now occupying the attention of El Paso labor agencies, whose hustlers meet the immigrants just after they cross the Santa Fe bridge into America.

The pulling and pushing by rival agents is then commenced and is not ended until the Mexican is finally corralled in one of the offices of the labor agencies located in the vicinity of Sixth and El Paso streets. The shipment of Mexicans has commenced earlier this year than usual, the early spring in the north being responsible.

The laborers receive from \$1 to \$1.25 per day and special inducements are offered to men with large families.

## SHORT RAILROAD TO TEXAS COAST ISLAND.

E. O. Burton, one of the incorporators of the Aransas Pass Railroad company, is authority for the statement that the road will be constructed from a connection on the San Antonio & Aransas Pass railway to Harbor Island, a dump thrown up by the dredging of the channel by the Aransas Pass Channel & Dock company. The dirt thrown up by the dredge will be used for the roadbed. Although the road will be but seven miles long it will require the construction of almost one mile of trestles. There will also be one 40 foot drawbridge.

## ANOTHER RAILROAD BEGINS USING OIL FOR FUEL.

The list of railroads using oil for fuel purposes in locomotives continues to increase, the last large contract being awarded by the Gulf, Colorado & Santa Fe railroad to the Gulf Pipe Line company for 3,000,000 barrels of oil to be used during the two years beginning July 1. Deliveries of 5342 barrels daily are to be made at Saratoga, Hardin county, and at Houston, where the headquarters of the Gulf Pipe Line company and the Gulf Refining company are located.

## WORK IS COMMENCED ON ARIZONA TO GULF ROAD.

The Lantry Sharpe Construction company, which is to build the Arizona, Mexico & Gulf of California railroad, has shipped the first installment of supplies to Fort Lohos and will begin work at once toward Saco. Five hundred mules have also been secured by the construction company and will be taken to the gulf at once.

## RAIN AND SLEET ARE REPORTED EAST ON G. H.

Reports received over the G. H. wires this morning state that a heavy rain fell over the territory between Marfa and Sanderson, a distance of 115 miles, and that at Alpine, in addition to a rain, a heavy sleet is falling.

Unconfirmed reports announce that a downpour occurred at Spofford and that a shower of rain fell at San Antonio.

## DOUBLE HEADER, WEST.

No. 9, the west bound Californian on the S. P., was run west from El Paso this morning as a double header. Heavy traffic is responsible, a number of home-seekers being bound for California.

## RAILROAD NEWS NOTES.

H. H. Hooper, foreman of the carpenter crew at the G. H. shops, has resigned, and expects to go to Pittsburg, Kansas, where he will work for the Kansas City Southern.

David McKnight, chief railway postal clerk, who underwent an operation in San Antonio this week, is reported to be improving.

## CITY TO PUMP SEWAGE INTO THE RIO GRANDE.

The sanitary committee of the city council decided Thursday afternoon to purchase a pump from Krakrauer, Zork & Moyer at an expense of \$300.

The pump will be installed in Woodlawn addition, west of Washington Park, and is for the purpose of pumping the sewage into the river. The necessity for the pump arose with the high water in the river, which flowed back into the sewer, and would not permit the sewage to flow out so it will be pumped out into the river.

## MARCH PERMITS BREAK RECORD

Number Issued for Improvements Is 111—Activity in Realty Deals.

March ended with a total of 111 building permits issued, four being taken out Thursday to wind up the month's business.

There were 15 real estate transfers recorded and March closed as the banner month thus far this year.

Joe Pineda and Pabla Diaz, W. Kalt-Rebeaux and Miss A. H. Stehn.

## GAS COMPANY TO MAKE IMPROVEMENTS.

Six or seven miles of main will be laid soon and other improvements made by the El Paso Gas & Electric company.

Definite announcement of the improvements has followed the visit to this city of George F. Goodnow, of Chicago, president of the company. Mr. Goodnow went over the ground with the local management which previously had decided certain necessary improvements. A new storage holder probably will be installed this summer.

## Many a Good Cook's Reputation Comes From the Flavoring She Uses.

## BURNETT'S VANILLA

usually deserves all the praise. Burnett's Vanilla gives an individual flavor to desserts, ices, puddings and candies. It gives that delicious, natural flavor of the "Finest Mexican Vanilla Beans." That is why Burnett's is never equalled.

## SHRINERS SECURE "MOCKING BIRDS"

Burro Patrol to Be Big Feature at New Orleans Convention.

Twenty-five desert "mocking birds" have been secured by the Shriners of El Malda temple to make the trip to New Orleans, leaving El Paso on April 7.

It is expected that at least 50 of the Turkish capped men, with their scimitars, will board the G. H. train for New Orleans and will have a bigger and a better time than they did last year at Louisville.

They will have an equally rousing time for the convention this year and with the Burro, El Paso will once more be heard of in the south, east and west as well as the north, for Shriners come from everywhere to attend the annual convention and this year there will be as big a crowd as ever.
